

GLANOX

— AIRPORT SOLUTIONS —

Experts in **refurbishment, maintenance**
and **overhaul** of airfield lighting
worldwide.

Our solutions are

Environment friendly

Cost saving

Quick delivery

Personalized advice

Adapted to individual needs

Procurement of spare parts that are no longer available

Procedure

- Malfunctioning/ damaged prisms/filter lamps are sent to Glanox KG.
- Glanox KG dismantles the lamps into their individual parts for inspection.
- 95% of the lamps can be refurbished.
- The prisms/color filters are ground and polished by a process specially developed by Glanox KG, so that products retain their original characteristics.
- After successful refurbishment and reassembly, the shipment is returned to the customer.
- This process can be used several times.

Your advantages
